

# CAPABILITIES STATEMENT

# OVERSIGHT ADVANTAGE

UEI: UYPGKT8DJD29 – CAGE: 92QE9 – NAICS: 541611 – DUNS: 118158108

SET-ASIDE: SERVICE-DISABLED VETERAN SMALL BUSINESS (SDVOSB)

## About Us

**VALUE = RB + CB + QB**

We help owners reduce risk (RB), increase certainty (CB), and improve quality (QB) of their capital project investments.

Since 2017, Oversight Advantage has been bridging the gap between knowing how to run a capital project and knowing how to oversee one.

For owners or sponsors of outsourced capital projects, our services and products are tailored to mitigate risk and reduce uncertainty, while improving the quality of deliverables.

Unlike conventional project management approaches, we focus on project oversight versus project management, customizing a project oversight model to maximize return on investment and protect against underperforming contractors.

If you have a struggling project or in any way need independent oversight and expertise, give us a call.

## Past Performance

SOUTHERN CALIFORNIA  
EDISON

Created and implemented the owner-oversight program for Southern California Edison for the billion-dollar demolition and dismantlement of the SONGS nuclear station. Currently advise and support owner representatives for major capital projects in the U.S., Canada, and Nigeria.

## Differentiators

- ✓ We leverage best practices from the premier gov't oversight organization, Naval Reactors
- ✓ We tailor solutions specific to unique needs of owners of capital projects
- ✓ We focus on turning oversight into a value center
- ✓ We have 30+ years' experience overseeing projects from the owner's perspective.
